Profile

Software Engineer with experience in React, React Native, TypeScript, Node.js, Express.js, and MongoDB. Built full-stack web and mobile applications with REST API integrations and responsive user interfaces. Completed a 7-month paid frontend internship developing finance management systems and collaborating in Agile teams using Git and modern software development practices.

Experience

Frontend Developer (Paid Internship), BM Technologies 03/2024 – 09/2024

- Developed 3 responsive finance management dashboards using React, TypeScript, and Chakra UI to improve usability and user experience.
- Integrated REST APIs and collaborated with backend developers to ensure smooth data flow and seamless application functionality.
- Participated in code reviews, debugging, and frontend optimization to improve application performance and maintain code quality.
- Worked in a collaborative development environment using Git and modern frontend development practices during a 7-month paid internship.

African Health Collaboration with Mastercard Foundation, 03/2026 – Present
Mobile Application Project Team Member

- Collaborated with a multidisciplinary team to create a mental health mobile application focused on improving accessibility, awareness, and user support.
- Contributed to frontend design and user experience improvements during the project development process.
- Selected to represent the project in Ghana through the African Health Collaboration with Mastercard Foundation competition.

Co-Founder & Mentor, WeCodeWKU 01/2024 – Present
Wolkite University

- Founded and lead WeCodeWKU, a student-led coding and mentorship community at Wolkite University, growing membership to 30+ active students.

Volunteer & Participant, International Institute of Education (IIE) 02/2023 – Present

- Volunteered and participated in the IIE Women Empowerment and Education Program.
- Completed short courses in animation, gaming, robotics, and fashion technology through the African Girls Can Code Initiative.

Education

BSc in Software Engineering, Wolkite University 05/2022 – 06/2026

Relevant coursework: Operating Systems, Web Development, Object-Oriented Programming, Data Structures and Algorithms.

CGPA : 3.61 Tempo 📄

Technical Skills

Frontend

- React.js ,Chakra UI ,Shadcn UI ,Tailwind CSS,HTML,JavaScript,TypeScript

Database

- MongoDB,MySQL,REST APIs

Soft Skills

- Leadership, Mentorship, Problem Solving, Team Collaboration, Communication,Agile,Testing,Debugging

Backend

- Node.js,Express.js,python(diango)

Tools

- Git & GitHub,Visual Studio Code,Postman

Mobile app

- React Native,Expo

Languages

- Amharic
- English

Projects

Mental Health Mobile Application

Developed a mental health mobile app with a multidisciplinary team to improve mental health awareness and accessibility. Experienced in Frontend Development and User Interface Design. The project was selected to compete in Ghana through the African Health Collaboration with Mastercard Foundation.

Finance Management System, *BM Technologies*

- Built full-stack finance management system using React, TypeScript, Node.js, Express, and MongoDB.
- Improved data handling efficiency and user experience.

AI-Powered E-Billing & Revenue Analytics System

- Developed a full-stack application using React, Node.js, Express.js, and MongoDB.
- Integrated OCR and AI-based image processing to extract receipt data automatically.
- Implemented predictive analytics to estimate monthly revenue trends.

T-Shirt E-Commerce Platform

- Developed an e-commerce web application for browsing, cart management, and product checkout.
 - Designed clean and modern UI with React and Tailwind CSS.
- Built backend APIs for product management and order processing.

Car Rental Management System

- Developed a full-stack car rental platform with vehicle listing, booking, and user authentication features.
- Built responsive UI components using React and Tailwind/Shadcn UI for seamless user experience.
- Implemented booking logic and RESTful APIs using Node.js and Express.js.

Certificates

JavaScript Algorithms and Data Structures - freeCodeCamp

Gained strong skills in JavaScript, problem-solving, and algorithmic thinking.

Front-End Development Libraries - freeCodeCamp

Learned React, Redux, Bootstrap, jQuery, and Sass to build responsive, dynamic web interfaces.
